---

Hi Mellissa!

The attached agreement was approved by CAO. However, can you also review for insurance requirements? If you have language that we need to insert and replace, you can send and we can make sure it is incorporated into the final file. Thank you for your assistance!

Have a great weekend,

Approved. Item 8 on the addendum listed the insurance requirements as Exhibit C, but they are Exhibit B in the document so that will need to be changed. The actual insurance exhibit should be changed to the final one. The highlighting for risk management needs to be removed and Mellissa needs to approve.

Sonia,

Jeff P from my office will be looking this over. I understand from Commander Cohen that you want to take it to the Council mid April. Thank you.

Subject: License Plate Readers

Hello,

Commander Cohen and I would like to request input regarding the proposed purchase of license plate reader technology.

- We are consulting with Finance regarding the funding mechanism to purchase, however would like to receive input and review of the terms of the agreement (attached).

- For the purposes of entering into the agreement, does that need city council approval? The proposed funding is already included in the business equipment replacement fund.

- Of consideration for the staff report and resolution, we would like to see how best to accomplish the goal of meeting the California Civil Code compliance applicable to automated license plate reader technology. Does this require a separate item, or can it be combined with the agreement? Attached is a staff report from City of Ventura that added the item on the consent agenda.

- Lastly, we would like input regarding certifying this vendor agreement as a sole source. The company has provided several examples in which municipalities have been successful in certifying sole source.

I can reach out to schedule a Teams meeting to review these items sometime in the next week(s). Please let me know if there is a time that works best.

Thank you!
